

# Quick Guide: Creating an eReferral

Software	Step 1	Step 2	Step 3	Step 4	Step 5
Best Practice	<p>Open the patient's file and click on the <b>HealthLink Icon</b></p> 	<p>Create a new eReferral by selecting the <b>blank white page</b> icon</p> 	<p>To refer to Allied Health, click on the 'Refer/ Contact other health providers'</p> 	<p>Search for the Allied Health Professional or via a Practice Name</p> 	<p>Select 'Refer Patient' to start an eReferral*</p>  <p>*if the provider is not shown after the search, they are not registered with HealthLink to receive referrals</p>
Medical Director	<p>Click on the <b>HealthLink tab</b> in the patient file</p> 	<p>Create a new referral by selecting the <b>New Form</b> icon</p> 			

## What is eReferral?

eReferrals are a way to send secure, electronic referral communication between primary health care providers, hospitals, specialists and allied health practitioners. eReferrals are powered by HealthLink Smartforms which is seamlessly integrated into existing general practice clinical software packages.
