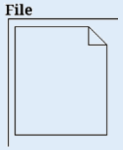
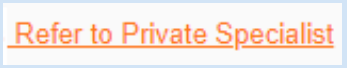
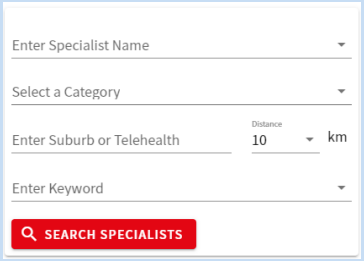
GP to Private Specialist

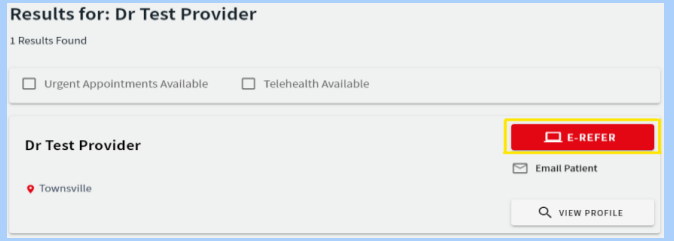
Quick Guide: Creating an eReferral

Software	Step 1	Step 2	Step 3	Step 4	Step 5
Best Practice	Open the patient's file and click on the **HealthLink Icon**	Create a new eReferral by selecting the **blank white page** icon	To refer to a Specialist click on the '**Refer to Private Specialist**' link next to Specialists & Referrals	Search for the **Specialist** or by **Specialty**	Select the red **E-REFER** icon*
Medical Director	Click on the **HealthLink tab** in the patient file	Create a new referral by selecting the **New Form** icon			





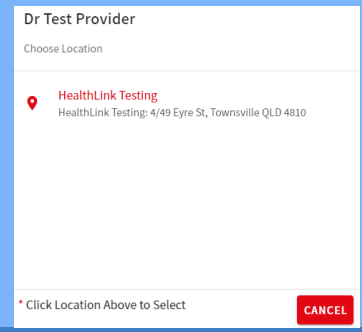




*If the E-REFER option is not available, you'll be able to refer manually through HealthLink

Step 6

Choose which **location** to begin the eReferral



What is eReferral?

eReferrals are a way to send secure, electronic referral communication between primary health care providers, hospitals, specialists and allied health practitioners.

eReferrals are powered by HealthLink Smartforms which is seamlessly integrated into existing general practice clinical software packages.
